Design Seating Comfort for Improving Multifungsi Pawas Taruna Anthropometry Static Method in the Air Force Academy

Akbar Bimantara --- Shidiq B

Abstract

Supervisory officer (Pawas) cadets are responsible for all the events that are in the cadets. A supervisory officer should always know what is being done by the cadets. Most of the time used Pawas currently is served daily in the supervisory officer. There are some facilities that support the performance of a supervisory officer who was in the room Pawas. To seat the officer was in the room supervisor rated less convenient due to the size that is too low and the materials used are too hard to make the seat less comfortable to use.

Keywords: Seating, Static Anthropometry.
